

## **Parts List Inflatable Dinghy Sail Kit SailboatsToGo, LLC**

Steering Oar – 1 provided

Front crossbar

Mast

Spar set - includes 3 jam cleats (2 loose, 1 mounted) and 2 clamp-on rope fittings.  
Downhaul rope attached to spar set, includes spring clip.

leeboards – 2 provided

Side rails with leeboard mounts – 2 provided

rear crossbar. (Not shown: Includes 2 bolts, with nuts and washers for attachment to motor-mount fittings.)

right-angle piece for rear crossbar

[No picture available – it's a short piece of square tubing with a u-bolt in one end and a hole in the other. You can see it in installation instructions, attached to middle of rear crossbar, going vertically down.]

sail (Some sails are packed with metal rings tied to corners. Discard rings. Do not discard corner strings.)

Mast slide (in some pictures appears as a white ring – that's an earlier design).

Oarpin - 1 provided – be sure to check nut on the pivot bolt – may be shipped too loose. Nut needs to be on far enough to engage nylon bushing in nut with bolt thread! Some oarpins have a little retainer pin at the bottom. This is not used and may be discarded.

Leeboard bolts with nylon retainer washers – 2 provided

Mast step with 2-hole plate, wing bolts and ring nuts

Ropes – thicker rope is sheet. Thinner rope is halyard.

Not pictured –

1. Instructions (Initial Sail Assembly, Rig Assembly, How to Sail)
2. Straps as required for your boat – usually 6 short straps and 1 long
3. For boats without anything to strap the rear crossbar right angle piece to (such as Navigator II and III and Seahawks other than Seahawk II) an L-shaped piece of 1-inch aluminum bar stock with a single hole at one end (see instructions section related to Navigators).

**Options:** Sail kit carry bag; heavy duty mast, spar extension (= 33-inch tube with button) & larger sail, second steering oar
